

# CATS UFP ASSESSMENTS 2020

CATS UFP is committed to ensuring that students can progress to the right university for them in 2020. We want to ensure that students, their families and universities trust the judgements that we make that inform the decisions that universities make are sound. Therefore, we will continue to assess our UFP students and provide final grades for them and universities.

Historically coursework marks do broadly reflect final grades and so we are confident that a system that, in part, increases coursework is fair to students and universities.

Our students will continue to take IELTS / CAE assessments as they can. Their daily English classes will continue online.
