BE YOUR BEST
We offer a world-class education, attracting students from across the globe. In a diverse and exciting international community, you will learn to be your best and achieve a place at a top university.
BEST FOR INTERNATIONAL STUDENTS

85+ nationalities
Join an international community with no more than 25% of any one nationality.

5 hours’ English per week
Develop your English skills and excel in your subject studies.

Expert teachers
All teachers are teachers of English and include published authors and examiners.

Small class sizes
Get individual attention from teachers and practise your English amongst friends.

Unlike traditional boarding schools in the UK, everyone in a CATS class is in the same situation - away from home, needing help to acclimatise, wanting to make new friends and committed to improving their English rapidly. Everything we do is aimed at helping you achieve this, from teachers who know how to adapt lessons to build confidence in English to houseparents who provide care and concern during your stay.

A typical day in the life of a CATS student is full of variety from start to finish – all with the goal of preparing you for life at university.

You spend time exploring your chosen subjects and improving your English. There is also time to pursue the things you love, try new activities and develop a range of skills - all whilst immersed in British life and culture.

This timeline illustrates a variety of activities. Your timetable will vary depending on your programme and subject choices. Not all activities will take place in a single day.
Our goal is to prepare you for university success; whether you would like to study Business at LSE, Medicine at Manchester or Chemical Engineering at Cambridge.

Whatever your aspirations are, we offer a wide range of programmes and subjects that will help you progress.

You will receive one-on-one guidance on applying to university. You will visit a range of campuses, attend workshops to help you perfect your personal statement and receive individual support such as interview practice.

In addition, you will have access to a range of activities through our Key Professions Programme to help you get a head start in a competitive career (see pages 12-19).
