Thien Huong Vu (Lexie) — Vietnamese
Studying Natural Sciences at the University of Cambridge

“It is a privilege to study in the UK. The education system here stretches you, encouraging you to think independently. You can choose the subjects you want to specialise in too, which is great when you know what you want to do in the future. I have achieved the goal I set myself.”

“If I described CATS in three words they would be: modern, encouraging and supportive. The teachers really help engage you in your work. They encourage you and support you to get what you need, they know what they are doing and are there to help you.”

Wanatchai Tassanee — Thai
Studying Product Design at Loughborough University

“Cambridge is a great city – local events such as the Cambridge Science Festival are on my doorstep. You meet lots of people from all around the world. The best thing about studying in the UK is the quality of the education here – a qualification from Britain is recognised all over the world.”

Rayan Farag Ali El Zawawi — Libyan
Studying Medicine at UCL

“The quality of the courses is good. The teachers offer support during the lessons and after school to help you succeed. I went to the extra sessions on interview preparation, and applying to university. Whenever I had a question about the process, I emailed the advisors and received feedback very quickly.”
