Introduction

The Special Educational Needs and Disability Act 2001 extended the original Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, under Part 4 of the DDA, which has now been echoed in the latest legislation of 2010, namely the Equality Act¹, the Colleges, CATS Cambridge and CSVPA, have held three key duties towards disabled students:

- not to treat disabled students less favourably for a reason related to their disability
- to make reasonable adjustments for disabled students, so that they are not at a substantial disadvantage
- to plan to increase access to education for disabled students.

This plan sets out the proposals of how the Colleges will increase access to education for disabled students in the three areas required by the planning duties in SENDA and the Equality Act:

- increasing the extent to which disabled students can participate in the school curriculum
- improving the delivery to disabled students of information that is provided in writing for students who are not disabled.
- improving the environment of the school to increase the extent to which disabled students can take advantage of education and associated services

It is a requirement that the Colleges' accessibility plan is resourced, implemented and reviewed and revised as necessary.

The purpose and direction of the Colleges' DDA plan, vision and values

The Colleges subscribe fully to the concept of inclusion. This plan and the actions arising from it are a manifestation of that commitment.

The Colleges' provide equality of opportunity for all of their students to follow a full curriculum timetable and to take part in extracurricular activities and in the full-life of the College² to which they belong. The individual needs of all students at our Colleges will be met effectively so that they each have the opportunity to benefit as fully as possible from the education that is provided and, consequentially, that each of our students has an equal opportunity to realise their individual potential.

The Colleges will monitor carefully the academic performance and personal development of students with protected characteristics and do whatever is necessary to provide them with effective support when it reasonably practicable to do so.

We recognise our responsibility to meet the individual needs of all of our students, and the need to maximise every student's opportunity to realise their potential. It is the responsibility of all members of the school community to ensure that this is achieved by removing as many barriers to learning and development as is possible.

We regularly examine all areas of our educational provision, and this includes the campuses within which that provision is delivered. We will examine any measures that will improve school life for the school community as whole and/or for any individual within that community, including any structural changes where these are possible, permissible, and necessary. The ambition of this work is to provide the correct environment for all our students to thrive and progress.

¹ The DDA has now wholly been replaced by the Equality Act, and is referred to in this Plan

² CATS Cambridge or CSVPA

Through the supportive environment provided at the Colleges and in partnership with parents and the wider organisation of CEG, the Colleges aim to maximise the self-possession and esteem of all of their students. This, in turn, helps students to realise their potential.

Information from Student data and Audits

Examination Access Arrangements

Access to internal and external examinations is available to all students. Anyone with identified difficulties could, dependent on need, use a laptop, have an amanuensis, a reader, an oral language modifier, a prompt, modified papers, extra time, rest breaks, have exams completed at home or in hospital, provided that their need is proven and approved by appropriate means.

Medical Conditions

Appropriate members of staff are kept advised of students who have medical conditions that may have a direct or indirect affect upon the student's education, and/or that may impact on their education due to the medicines or therapies employed to treat the medical condition. Where appropriate, staff members receive appropriate guidance and/or training in how the students' needs can be best accommodated in the activities for which the member of staff is responsible.

Bullying:

Students at our Colleges enjoy a safe and secure environment. We treat bullying as a serious matter. There is a clear section in the Student Handbook about bullying, setting out our policy with guidelines about how bullying is addressed at the Colleges. Students are encouraged to say if they are aware of bullying, and it is dealt with immediately. The Colleges' anti-bullying policy is available on both the website, and the Colleges' internal MIS, Shackleton.

Racism:

Students are encouraged to report such incidents and we deal with them immediately.

Child Protection:

Child protection arrangements are in place and regularly reviewed by the Colleges' Boards and the Colleges' Pastoral Care Team. The designated members of staff have been trained for their roles in this area, and the training is regularly reviewed to ensure that this is kept up to date.

Pastoral Care:

We have a strong pastoral system based on Personal Tutors, Programme Directors, Heads of House and House Parents. All of our staff are supportive, and feel that any student may talk to them at any time.

Health and Safety:

The Colleges' Operations Manager and other appropriately qualified members of staff and external contractors complete regular health and safety checks and audits. The Colleges' Governing Bodies meet regularly to review the actions taken to address issues identified in those checks and audits. All staff are aware of the need to report issues of health and safety immediately. As part of the Health and Safety policy, students as well as staff are regularly involved in risk assessments, e.g. practical subjects, outdoor activities and school visits.

Views of those consulted during the development of the plan

There is a clear line management system to gather feedback from members of staff in addition to which, all members of staff are free and encouraged to provide their thoughts to any member of the SLT or Governing body.

There is a general staff briefing once per week at which all academic staff are present.

When we have students with EHC plans we receive feedback from their parents via the Annual Review process in place for those plans.

We receive very few complaints from parents of our students. When we do, we are always keen to learn from parents' and students' experiences and where appropriate these learning points will be fed into the development of this plan.

The main priorities and structure of in the Colleges' DDA plan

The Colleges' DDA plan is structured to align with the duties set out in the relevant legislation:

- Increasing the extent to which disabled students can participate in the school curriculum
- Improving the delivery to disabled students of information that is provided in writing for students who are not disabled
- Improving the physical environment of the school to increase the extent to which disabled students can take advantage of education and associated services

Details of the planned activities in each of these areas are available in the schedule provided in Appendix 1.

Making it happen – ownership management, coordination and implementation

The Colleges' DDA plan is owned by the Principal of CATS Cambridge and the Rector of CSVPA. The plan will be revised on a regular basis, at least annually, but more often if that is required to meet the needs of the Colleges' students, potential students and staff.

The plan will be reviewed by the Colleges' DDA Committee. The committee will meet termly to monitor progress. Progress reports will be annotated on the schedule at Appendix A the updated schedule will then be reviewed by the Colleges' SLTs.

The membership of the DDA committee is as follows, the Assistant Principal (Pastoral), who will also chair the committee, Dean of Academic Programmes (Foundation and Extended Diploma), Assistant Principal (Academic), the Colleges' ALS Co-ordinators, Colleges' Operations Manager and the Colleges' Registrars.

The Committee will make recommendations to the Principal and the Rector for consideration by the Colleges' Boards.

Policies within the Colleges that link with and take account of this plan are the Health and Safety Policy, Equality and Diversity Policy, and the Fire Prevention Policy.

The Colleges will implement changes as required by their students and staff needs, insofar as it is reasonably practicable to do so.

Monitoring and Review of Policy

The Colleges' Boards will review this policy statement annually, and update, modify or amend it, as they consider necessary to ensure that the Colleges continue to meet their legislative duties with respect to legislation relating to Equality and, also, to ensure the health, safety and welfare of all staff and students taking into account any managerial and legislative changes.

DDA Plan 2018-2021 Schedule as at 061218 (all targets are owned by the Principal of CATS Cambridge and the Rector of CSVPA)

The duties to which each target contributes is indicated in the final three columns:

1. increasing the extent to which disabled students can participate in the school curriculum
2. improving the delivery to disabled students of information that is provided in writing for students who are not disabled.
3. improving the environment of the school to increase the extent to which disabled students can take advantage of education and associated services.
